

Director of Infrastructure Services: Keith Appleby BSc, BEngTech(Civil)

The Department of Infrastructure Services is comprised of the following sections:

- Glen Innes Aggregates Quarry
- Design Services
- Roads and Bridges Infrastructure Works
- Technical Services
- Plant and Fleet Maintenance
- Integrated Water Services
 - Water Reticulation
 - Wastewater Plant Operation

Keith Appleby, Director of Infrastructure Services, took up the Director's position in December 2014. Leading up to the role, Keith was the Manager of Integrated Water and Sustainability Services for Council for five (5) years. Keith served with the Inverell Shire Council for five (5) years in asset management prior to joining Glen Innes Severn Council.

Keith has overseen a number of significant projects for our community during his time with Council:

- Deepwater Water Treatment Plant construction
- Deepwater Water Reservoir construction
- Purchase and development of Glen Innes Aggregates
- Eerindii Ponds Off Stream Water Storage and solar energy project
- CBD upgrade
- Glen Innes Swim Centre upgrade
- Development of Wattle Vale Quarry to support windfarm construction
- Implementation of manufactured gravel road re-sheeting program
- Bridges renewal program
